Problems we solve

Scattered records

Every visit is saved with the customer, services and staff. Find anyone by mobile number in seconds.

Forgotten udhaar

Dues are recorded by themselves. See who owes what; one-tap WhatsApp reminder; customers pay by UPI.

Customers quietly stop coming

See who has not come in 30, 60 or 90 days, and send a "We miss you" offer.

Empty chairs, walk-aways

AI finds your slow hours; nearby customers see free seats and the wait before they come.

No clear view of the business

Today's sales, dues, top staff and best services on one screen, wherever you are.

Staff work is hard to track

Every bill records who gave the service, so you see each person's work and sales.

Features

Billing

- Bill in a few taps: mobile number, services, save
- Frequently used services first; any extra item
- Cash, UPI or card; PDF bill on WhatsApp

GST done right

- Not registered, Composition or Regular GST
- GSTIN + SAC 999721 on the bill
- Correct CGST + SGST; GST-style bill numbers every FY

Dues (udhaar)

- Part payment goes to dues by itself
- Who owes what, since when; WhatsApp reminder
- Customers pay dues by UPI from their app

Customers

- Visits, spend, birthday, notes, bills, dues
- Premium / Regular / New
- "Not visited in 15 / 30 / 60 days" filter

Staff

- Own login for each staff member
- Owner, manager and staff roles
- Services and sales of each staff member

Dashboard and reports

- Today: revenue, collected, dues, bills
- Trend by day, week, month, year
- By service, by staff, by payment mode

More for you and your customers

Appointment requests

- Customers ask for a day and time in the app
- You hear at once; confirm in one tap
- Or offer another time

Seat Board + Notify me

- Tap each chair Busy or Free; no machine needed
- Customers see free seats and the wait
- "Notify me" when a seat frees

App for your customers

- Salons nearby with prices and "open now"
- Their visits, bills and dues
- Request an appointment

Safe and easy

- PIN, fingerprint or Face ID
- Each salon's data kept apart
- Android, iPhone and web; Microsoft Azure

Enterprise add-on: Smart Camera

Chairs mark busy or free by themselves, unbilled services are caught, and AI shows who is in the chair. Separate brochure.

ENTERPRISE

AI OFFERS

An AI growth adviser for your salon.

No random discounts. The AI reads your salon's own numbers and suggests offers that fix a real gap.

What it looks at

- Your last 30 days in detail, 3 months before as a summary
- Days and hours with the fewest bills
- Services growing, falling or not booked lately
- Customers away 3+ months, regulars, birthdays this week, new app visitors

What it suggests (examples)

Fill the slow hours
20% off 2–4 pm: fewest bills then

We miss you
30% off for customers away 3 months

Thank your regulars
15% off for loyal customers

Birthday this week
25% off as a birthday treat

You stay in control

- Nothing goes out until you approve it; edit discount, days and hours first
- You set the highest discount allowed
- The AI sees only numbers, never names, phones or emails

Benefits in short

- More money collected: no forgotten udhaar
- More repeat visits: lapsed customers come back
- Fuller chairs: slow-hour offers and live free seats
- Faster billing: a bill in seconds, GST worked out
- Full control from your phone, from anywhere
- A professional image: proper PDF bills
- New customers find you in the app
