AI BASED SMART SALON

Your whole salon.
One app.

Checkout, sales tax, balances, clients, staff and live seats, with AI that tells you whom to invite back. For owners, staff and clients, on Android, iPhone and the web.

- Checkout in seconds
- No forgotten balances
- AI brings clients back

Plans from $19 / month

mlgstylo.com

Problems we solve

Scattered records

Every visit is saved with the client, services and stylist. Find anyone by phone number in seconds.

Unpaid balances

Balances are recorded by themselves. See who owes what and send a reminder in one tap.

Clients quietly stop coming

See who has not visited in 30, 60 or 90 days, and send a "We miss you" offer.

Empty chairs, walk-aways

AI finds your slow hours; nearby clients see open chairs and the wait before they come.

No clear view of the business

Today's sales, balances, top stylists and best services on one screen, wherever you are.

Stylist performance is unclear

Every ticket records the stylist, so you see each person's work and sales.

Features

Checkout

- A ticket in a few taps: phone number, services, save
- Most-used services first; anything off-menu
- Cash or card; PDF receipt by text or email

Sales tax

- Your tax name and rate, up to 3 decimals
- Split into state + city taxes (up to 5)
- Each tax line on the receipt; yearly numbering

Balances

- Part payment saved as a balance
- Who owes what, since when
- One-tap reminder message

Clients

- Visits, spend, birthday, notes, receipts
- Premium / Regular / New
- "Not visited in 15 / 30 / 60 days" filter

Staff

- Own login for each stylist
- Owner, manager and staff roles
- Services and sales per stylist

Dashboard and reports

- Today: revenue, collected, balances, tickets
- Trend by day, week, month, year
- By service, by stylist, by payment type

More for you and your clients

Appointment requests

- Clients request a time in the app
- You hear at once; confirm in one tap
- Or offer another time

Seat Board + Notify me

- Tap each chair Busy or Open; no hardware
- Clients see open chairs and the wait
- "Notify me" when a chair opens

App for your clients

- Salons nearby with prices and "open now"
- Their visits, receipts and balance
- Request an appointment

Safe and easy

- PIN, fingerprint or Face ID
- Each salon's data kept apart
- Android, iPhone and web; Microsoft Azure

Enterprise add-on: Smart Camera

Chairs mark busy or open by themselves, unbilled services are caught, and AI shows who is in the chair. Separate brochure.

ENTERPRISE

AI OFFERS

An AI growth adviser for your salon.

No random discounts. The AI reads your salon's own numbers and suggests offers that fix a real gap.

What it looks at

- Your last 30 days in detail, 3 months before as a summary
- Days and hours with the fewest tickets
- Services growing, falling or not booked lately
- Clients away 3+ months, regulars, birthdays this week, new app visitors

What it suggests (examples)

Fill the slow hours
20% off 2–4 pm: fewest tickets then

We miss you
30% off for clients away 3 months

Thank your regulars
15% off for loyal clients

Birthday this week
25% off as a birthday treat

You stay in control

- Nothing goes out until you approve it; edit discount, days and hours first
- You set the highest discount allowed
- The AI sees only numbers, never names, phones or emails

Benefits in short

- More money collected: no forgotten balances
- Fuller chairs: slow-hour offers and live open chairs
- Full control from your phone, from anywhere
- New clients find you in the app
- More repeat visits: lapsed clients come back
- Faster checkout: a receipt in seconds, tax worked out
- A professional image: clean PDF receipts

Plans

Starter	Professional	Business	Enterprise
$19 / month	$39 / month	$79 / month	Custom

Sales tax extra, as per your state and local rules.
