MLG Stylo
AI based Smart Salon

ENTERPRISE ADD-ON

SMART CAMERA · ENTERPRISE ADD-ON

Every chair, known live.

An add-on for MLG Stylo Enterprise salons. A small camera device marks every chair busy or free by itself, catches services that were never billed, and tells you who is in the chair.

Chair 1	Chair 2	Chair 3	Chair 4
BUSY	FREE	BUSY	FREE
25 min	free 8 min	40 min	free 2 min

- Busy or free in ~30 seconds
- Sittings vs bills, every day
- AI customer insights

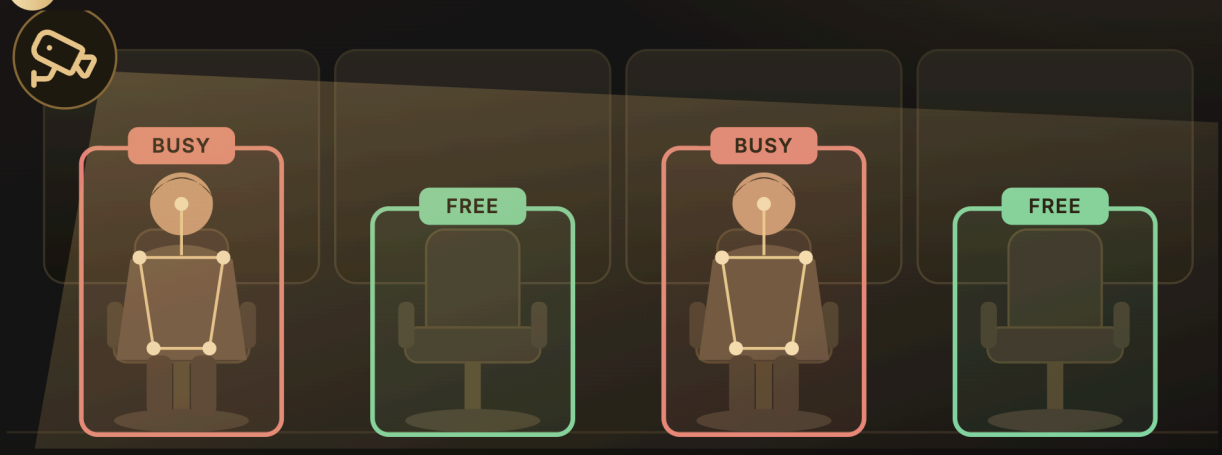
Smart Camera: how it works

1 Camera sees the chairs



2

Photo stays in the salon

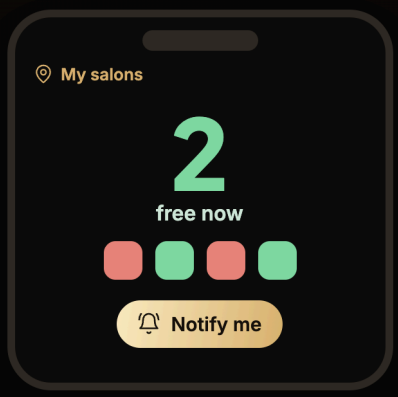
AI

AI inside the salon

Only busy / free goes out

3 Owner's app

3 Customer's app



The problems it solves

Service done, bill not made
You never know how many services slip through without a bill.

Seat updates are forgotten
Staff are busy; customers see the wrong wait and walk away.

"Who is in the chair?"
No time to check history, so the upsell is missed and the wrong stylist is sent.

Busy hours are a guess
Staffing and chair planning without real numbers.

How it works

Camera
your CCTV, a phone or our camera

→

AI inside your salon
runs on a small device

→

Only results go out
busy / free and insights

→

Your app
owner, manager, staff

What you need

- Your existing CCTV (RTSP), a phone, or a camera from us
- One small AI device, which we bring
- The salon's Wi-Fi
- One camera covers 3–4 chairs
- We install and set up everything: camera angle, chair areas, testing

What you get

Chairs update by themselves

Busy or free in about 30 seconds. Nobody has to tap.

Chair 2 · free now

Sittings vs bills

Every day: chair sittings checked against the bills made.

12 sittings · 9 bills

Chair and staff use

Busy hours and sittings per chair, every day.

Chair 1 · 78% busy

Live seats + Notify me

Customers see free chairs and get a ping when one frees.

2 free · Notify me

How it pays back (example)

Unbilled services caught 2 a day × ₹300 × 30 days	**₹18,000**
One extra add-on from insights 1 a day × ₹400 × 30 days	**₹12,000**
Extra every month	**₹30,000**

* Example only. In the demo we work out the numbers for your own salon.

AI CUSTOMER INSIGHTS

Customer sits. You already know them.

Tap the chair and see the customer's whole story, before you say hello.

Chair 2 · seated 2 min ago

Ananya Iyer ☆ PREMIUM

- 24 visits · average bill ₹2,400
- Birthday on Friday · Dues ₹0
- Last time: Keratin, 45 days ago
- Likes: soft water, no strong scent

SUGGEST
Keratin touch-up + Hair spa offer

ASSIGN
Priya Nair · Senior stylist · her favourite

Right pitch, bigger bill
Next service from what they had and when

Right stylist
Premium gets senior; the stylist they liked

Personal touch
Greet by name, birthday, likes and allergies

VIP alert
A premium customer walks in or waits: you know at once

Win back
Back after 60 days? Welcome-back offer on the spot

Dues, gently
Old dues show up while they are in the chair

Privacy and trust

- AI runs inside your salon. No photo or video ever leaves it.
- Face insights only with the customer's consent, and only if your salon turns them on.
- Customers can say no at any time; their face data is then deleted.
- Face data stays private and is never sold or shared.
- Each salon sees only its own customers.

How to start

1. **Talk to us**
   Demo and a quick look at your salon
2. **Site visit**
   Chairs, cameras and Wi-Fi checked
3. **Install**
   We set up the device, camera and chair areas
4. **Pilot**
   Two weeks; we check the numbers with you
5. **Go live**
   Your team uses it every day

Made for

- Salon chains and franchises
- Premium salons
- Salons with 4 or more chairs
